

DICO ANGELO

Revenue Technology | GTM Systems | AI-Assisted Automation

Toronto, ON | Canadian citizen | dico.angelo97@gmail.com | 519-999-6099

linkedin.com/in/dico-angelo | dicoangelo.metaventionsai.com

Revenue technology manager who runs the systems behind revenue teams: platform administration, integrations, reporting, vendor governance and AI-assisted automation. Hands-on owner of GTM stack administration and integrations at EZRA (Adecco Group). Previously ran partner-systems operations at Contentsquare, processing 2,500+ deal registrations at 97% approval.

PROFESSIONAL EXPERIENCE

EZRA, Adecco Group | Revenue Technology Manager

Jun 2026 to Present

- Built the system of record for the revenue stack: 15 costed vendor lines with verified term dates, notice periods and ownership. Surfaced renewal exposure on roughly 30% of tracked vendor spend that a forward-looking report had missed.
- Run the analysis behind vendor evaluations and renewals across Gong, Apollo, Qualified, WRITER, Gumloop and event technology, bringing requirements and recommendations to GTM Operations leadership for joint decisions.
- Partner on AI tool deployments, including platform management for the WRITER rollout: access, champions group and enablement for Brand, Creative and Product Marketing. Co-published the Sales AI Playbook with Revenue Enablement.
- Building the Qualified AI SDR setup with regional marketing teams and GTM Operations leadership: lead routing, automated follow-up and Salesforce campaign write-back.
- Building Writer-to-Gong and Gong-to-Apollo integrations and Gumloop briefing workflows for sales; run provisioning, permissions, connector access and offboarding across the stack.
- Build reporting across Gong and Salesforce, including MEDDPICC coverage analysis that traced a reported closed-won gap to a denominator difference rather than a data defect.

Contentsquare | Senior Partner Systems & Operations Lead

Title of record: Sr. Partner Systems and Operations Specialist

May 2023 to Nov 2025

- Ran partner-systems operations across AWS, Microsoft, Salesforce, PartnerStack, Crossbeam, Reveal and Suger on a three-person team, connecting a 400+ seller organization with partner managers, legal and finance across three regions.
- Processed 2,500+ deal registrations at 97% approval, representing \$800M+ in shared pipeline TCV co-registered with AWS and Microsoft.
- Improved deal-registration workflows from 8 minutes to 30 seconds using AI-assisted automation; integrated partner-program systems into the cloud-alliance side of OneCRM.
- Built Salesforce reports for pipeline, propensity scoring, stage gating and partner attribution for pipeline reviews and QBRs.
- Led renewal planning for three partner systems with procurement and legal; co-managed AWS market-development funding submissions and reconciliation.
- Supported the operations layer of a cloud marketplace program that grew from \$0 to \$30M+ in revenue over 30 months, with 14x AWS year-over-year growth (team result).

DICO ANGELO

PROFESSIONAL EXPERIENCE CONTINUED

Rocket Mortgage Canada, formerly Edison Financial | Product Operations Specialist

Jun 2020 to May 2023

- Administered Salesforce workflows, reports and dashboards for sales, product and operations in a regulated mortgage-finance business.
- Worked across Product, Sales and Customer Service on sprint planning, user stories, stakeholder demos and feature-adoption tracking; supported process automation and quality-control workflows.
- Coordinated the Salesforce-to-Outlook rollout, permission sets and onboarding; produced funnel, escalation and deal-quality reporting for a 45-agent operation.

INDEPENDENT WORK

Metaventions AI | Founder

Nov 2025 to Present | Independent practice, concurrent with EZRA

- Build knowledge-retrieval and workflow-automation tools using AI-assisted development, from requirements and system design through implementation, testing and deployment.
- Built ResearchGravity to capture research findings and retrieve prior work across AI tools; shipped client websites with booking, payments and lead capture (Next.js, Supabase, Stripe).

RESEARCH

Burstiness Was Measured Wrong, and Prompting Cannot Aim It

Co-author with Vittoria Lanzo · Accepted poster, NeurIPS 2026 Workshop LP4FM

COMMUNITY LEADERSHIP

Up2Youth | Founding Director

Mar 2019 to Mar 2022

- Founded a youth-development program awarded \$255,000 over 36 months through Ontario's Youth Opportunities Fund.
- Led program design, mentoring, partner coordination, grant compliance and impact reporting, supporting Black youth through education and post-secondary pathways.

CORE STRENGTHS

Revenue systems Salesforce, CRM governance, partner platforms, deal registration and vendors.

Delivery and adoption Requirements, integrations, testing, enablement and stakeholder coordination.
